EDITORIAL DESIGN

This is the earliest episode on the list and it's the first time we see Marceline and Bubblegum share the screen. It's couples night in the Land of Ooo and Finn is trying to ask Princess Bubblegum out on a date. Naturally, he and Jake turn to their vampire friend Marceline for advice. When Bubblegum sees the Vampire Queen, she side eyes her and says "Hey, Marceline," to which she playfully teases "Hello, Bonniel," letting us know Bubblegum's first name and that Marceline is one of the few people who's allowed to call her by it.

This is one of the most memorable and talked-about moments of the entire series. I remember paying Tumblr at the time erupting with excitement when Marceline sang her song "I'm Just Your Problem" in this episode. After Marceline starts singing:

"I'm gonna drink the red from your pretty pink face, Bubblegum interrupts her and tells her to stop being so disruptive. Marceline reacts by singing that she's nothing like PB's loyal subjects that she's crude and punk and she must be such an inconvenience and a problem to the princess. But she ends the song singing:

I shouldn't have to be the one that makes up with you to stay do I want to? before blushing and yelling at Bubblegum for staring at her. It's the song that launched a thousand ships.

In the series finale, a few of the main characters fight a giant monster at the end of the world. When it looks like the creature has smashed Princess Bubblegum, Marceline is filled with rage and turns into a giant beast that pummels the evil one to pieces.

Varmints is one of the most genuine and grounded episodes of Adventure Time, if we focus on the conversation that Marcy and Bubblegum have and not on the giant varmints. But that's where the heart of the episode is and what makes it so great.

MOMENT
BUBBLINE

-In the episode "Broke His Crown," Marcy takes Bubblegum on what is clearly a date to her friend The Ice King's castle. The two dress up in fancy outfits, hold hands, and make each other blush. Marceline and Bubblegum Grow

Old Together! It also has this very cute moment where Simon asks if Marcy's "got a boyfriend yet" and she scoffs, laughs, and says a rather emphatic "no" as we see PB smile in the foreground.

At this point in the show it seems like the two are back to being good friends but not quite partners again, and a lot of the conversation that happens here feels like groundwork for them getting back together.

THIS IS ONE OF MY EDITORIAL DESIGN WORK IT'S INSTIGATED IN ADVENTURE TIME. TO BE MORE ACCURATE BUBBLINE IS A COUPLE IN THIS SERIES

In the episode "Marcy & Hunson," Marceline sings her most clear and direct love song to Bonniel. Written by queer country singer Babeo Baggins, the song is all about how the singer wants to slow dance with a girl — and that even though she's not "tough and cool" like all the boys, she just wants a chance. It's the perfect Bubbleline song, capturing the essence of queer love and complicated relationships in a few simple lines.

Gravity Falls

Twins Dipper and Mabel travel to the mysterious town of Gravity Falls in Oregon for their summer vacations but are shocked after they discover some strange occurrences.

One of the freakiest episodes that I can think of is called 'Into the Bunker'. In this episode, the twins along with their friends Soos and Wendy

In one scene it crawls up the wall and onto the cave ceiling as a freaky spider humor. And in another it transforms into a hairy thing.

of Dipper and Mabel with some things that exist within the series, but for little kids? Definitely not.

It is a truly terrifying and disturbing sight and could definitely give kids nightmares.

Personally, I think that Gravity Falls is not meant for children.

It might be perfect for a slightly older audience who can handle the spooks, the scores and the downright bizarre things that exist within the series, but for little kids? Definitely not.

Adventure Time, explained Right. So it's a cartoon about a boy and his dog, right? At first glance, yes. It's a CartoonNetwork show about Finn the human and Jake the dog, who can transform into all sorts of useful shapes and sizes.

The characters in the world don't even notice the junk. It's just part of the landscape.

It's also a series with a high moral content,

which makes it ideal for kids to watch. They may not understand the meaning.

for example The Concept of Death

When a being dies, they are first transported to the Land of the Dead, which is like a gateway and a hub leading to all the other deadworlds.

and of the spectrum the fifth dimension is a realm where inhabitants have achieved escape from all death, and exist for all eternity in total.

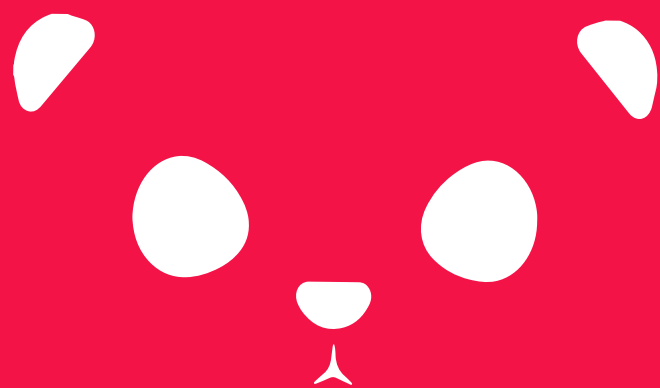

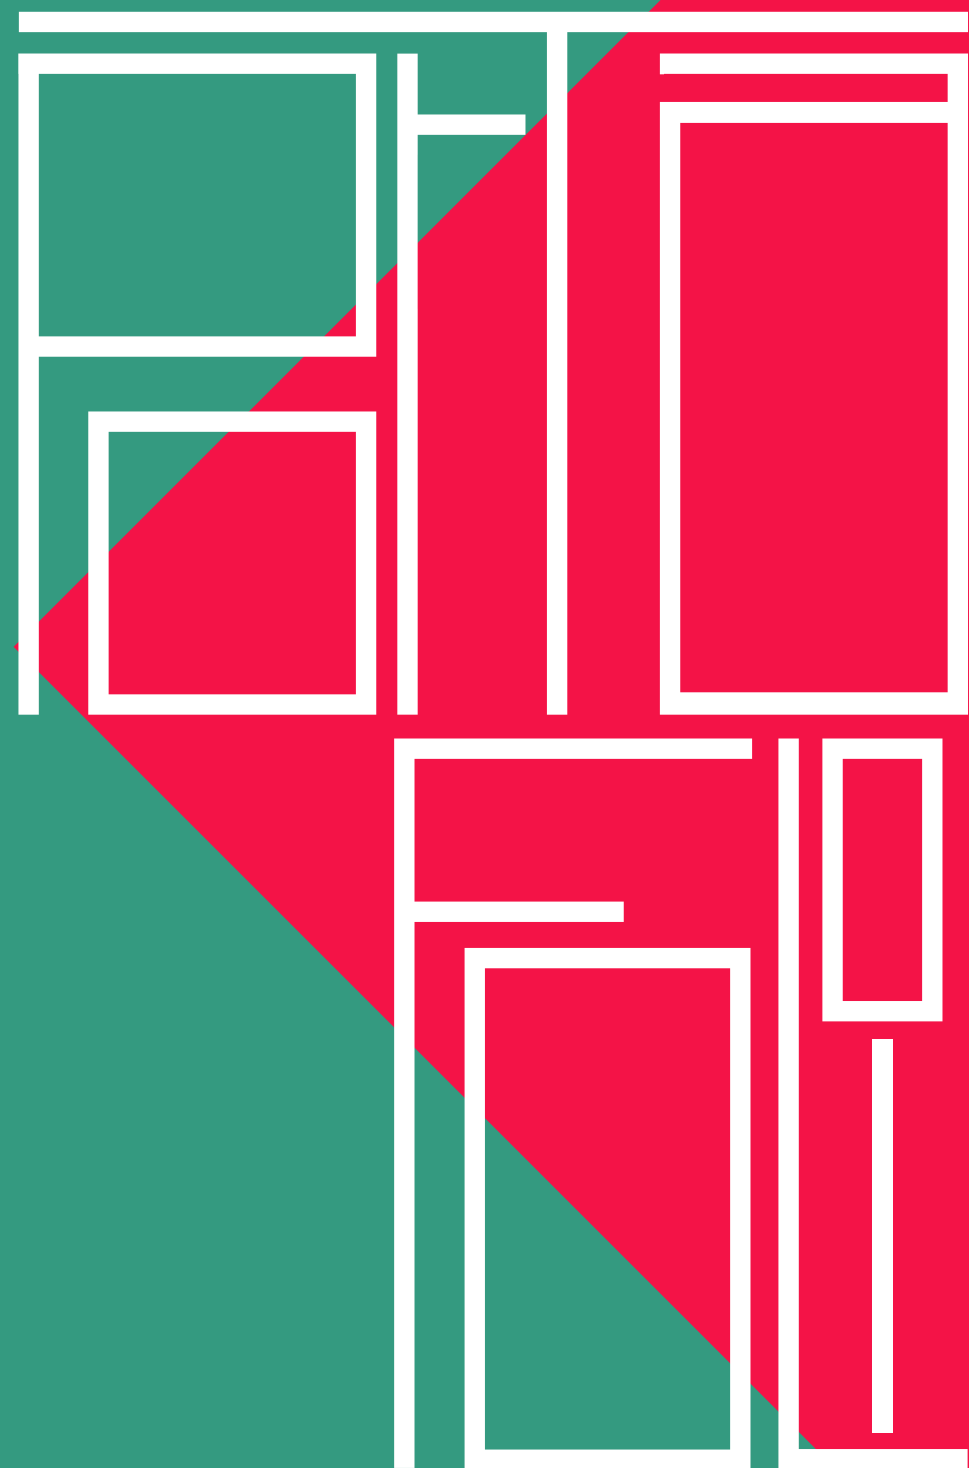

There is much variety among the fifty
